Our Philosophy

Evergreen Wellness™ is a lifestyle program that gives people 55 and over information and resources to help them enjoy healthier, happier lives.

We host local events like health expos and seminars, where people have fun learning about making healthy lifestyle choices, and we support those efforts with a website where they can go to learn even more.

The Inspiration Behind Evergreen Wellness: The Villages

We created the program in partnership with The Villages – the largest retirement community in the U.S. Its growing population of more than 115,000 residents enjoy endless fitness options, countless social events, ongoing learning opportunities, and other offerings that support an active and healthy lifestyle. They also benefit from a world-class healthcare system that is community-based, patient-centered, and as phenomenal as the community itself. In short, our goal is to bring the vitality of The Villages lifestyle nationwide - so people everywhere can tap into the benefits of America's Healthiest Hometown®.

“Let's dispel the notion that the best years for aging adults are behind them.”

Focus on Older Adults

Our sole focus is the health and happiness of people 55 and over in the 21st Century. In partnership with The Villages and The Villages Health, we are a trusted authority on the unique issues this audience faces and the solutions that improve their overall well-being.

Facilitate Healthy Lifestyles

Our patient-centered approach to healthcare, both holistic and preventive, supports the quality of older adults' lives in every way – physically, psychologically, spiritually, emotionally, and socially. We act as navigators through the complexities of living in this stage of life, making it easy for them to remain active and healthy. We offer a myriad of healthy activities, where they can participate in lectures, workshops, health expos, athletic events, and much more.

Lead with Integrity

Our goals are pursued with a genuine spirit of hospitality and care for older adults. We always create experiences where they can learn, grow, and feel valued as contributors to society.

Give Back

We give back to communities through our volunteer networks and other initiatives that support the quality of older adults' lives in every way.

Educate

As a trusted authority on older adult wellness, we empower older adults and caregivers with the knowledge they need to lead healthy and happy lives. By being resourceful, innovative, and engaging, we strive to make a difference in every educational initiative we implement.

Connect

We bring older adults together through live events, group activities, online communities, and more. By fostering strong social networks, we help them stay active and engaged, as we strive to minimize loneliness and isolation. Additionally, as an organization, we connect with other organizations to form partnerships that enhance older adults' lives.

Innovate

We envision a world where older adults are empowered to improve their lives in new and exciting ways, where health care systems offer a more positive experience across the board. We welcome out-of-the-box solutions and are advocates for change that better the lives of older adults.

“Older adults who identified themselves as lonely had a 59% greater risk of decline and a 45% greater risk of death.

– Health and Retirement Study, National Institute on Aging

If we think of the Evergreen Wellness brand as a personality type, it would be a respected and admired coach: a knowledgeable and trusted expert – yet friendly and approachable – who provides the guidance, encouragement and support to help older adults live happy and healthy lives. Though our audience is older, Evergreen Wellness is anything but old and stuffy. We are instead as vibrant, contemporary and fun as the new ideas and joyful living we propose. Like any good coach, we are always professional and play by the rules. And we truly care about the success of our team. Our welcoming, positive energy is an irresistible invitation to join, play, learn, grow, change, share and ultimately win.

Our brand voice is warm, friendly, knowledgeable and inspiring. We are thought-provoking and entertaining storytellers who show a depth of understanding about our subjects and engage our audience's curiosity. By presenting this consistent and differentiated voice in every communication, we are expressing the Evergreen Wellness personality and inviting our audience to get to know us and build a relationship with us.

INSPIRING

Icon

The Evergreen Wellness logo has an icon made of three stripes that form an “E” and represent health in mind, body, and spirit - the holistic approach to health that Evergreen Wellness promotes. The shape of these stripes also mimic an evergreen tree’s leaf blades. The icon further reflects the essence of the brand by being used as an enlarged graphic design element in various branded communications.

Colors

The green colors in the logo represent vibrancy and growth, with the bright green suggesting rebirth or young growth, while the darker green reflects older growth as well as the actual color of an evergreen tree. The orange color represents the energy and warmth of the sun (with a nod to the brand tagline, “Shine On”), as well as the vitality and glow of health, and nicely compliments the shades of green. The darker green color also pays homage to The Villages, the founding partner of Evergreen Wellness, as it’s a slight variation of The Villages’ dark green brand color.

Type Treatment

The font used in the logo, Helvetica, is as timeless as the brand itself and offers a clean simplicity that’s easy for older audiences to read.

The clear space has been established to ensure the logo's visibility and impact by maintaining a clear space between the logo and other graphic elements. Whenever possible, allow even more space around the logo than required by the clear space. This space is proportional and is based on the width of the "E" from "Evergreen". When using the icon alone, the space will be based on the height of the icon's stripes, as shown below:

The logo must never be used in a smaller size than the size identified below. The minimum logo size provides the smallest possible reduction in which the logo is still easy to read.

Horizontal Logo

Minimum print size **0.63 inch (16 mm)** wide

Minimum digital size **85 pixels** wide

Stacked Logo

Minimum print size **0.52 inch (13 mm)** wide

Minimum digital size **75 pixels** wide

Icon

Minimum print size **0.29 inch (7 mm)** wide

Minimum digital size **42 pixels** wide

Co-Brand Logo

Minimum print size **1.3 inch (33 mm)** wide

Minimum digital size **174 pixels** wide

Logo Use on Solid Color Backgrounds

The Evergreen Wellness full color logo should be used primarily on a white or light background. The reversed white logo should be used with darker backgrounds. The logo must always read clearly, having sufficient contrast. The same will apply when the icon is used by itself.
